

September 21, 2017

Dear Arrowhead Resident,

Vail Honeywagon provides dual stream recycling service in Arrowhead every other week as indicated on our website, [www.vailhoneywagon.com](http://www.vailhoneywagon.com). Arrowhead's recycling schedule is listed in the "A Week" section.

Please review this flyer as a reminder of our recycling program. It is very important these guidelines are followed as the recycle processors are becoming very strict and penalize us for contamination.

Please note: single stream recycle collection (putting everything in one bin) is no longer available in Arrowhead.

Feel free to contact our office with any questions at (970)476-3511.

Thank you for recycling (correctly)!

## Dual Stream (2 Bin) Recycling

### **Bin # 1: Newspaper, Magazines & Office Paper:**

Place Newspaper (including inserts), office paper, magazines, and envelopes in the bin. On windy days cover the paper so it will not be blown around. Staples & paperclips are ok.

**NO:** cardboard, paper board (cereal boxes), phonebooks, plastic bags or trash

\*Cardboard can be recycled at one of the four Eagle County drop-off sites that we service

### **Bin # 2: Co-mingled Glass, Plastics, Aluminum & Tin Containers:**

**Glass Bottles & Jars** - Please remove the lids. All colors of glass are currently accepted.

**NO:** ceramics, light bulbs, windows, mirrors, or glassware.

**Aluminum Cans** -All aluminum, tin or steel food/beverage cans are accepted.

**NO:** metal rods, shelves or sheets of metal.

**Plastics Containers** - Please empty liquids and remove lids.

**NO:** Plastic grocery bags. They should be recycled at your local grocery store.

**NO:** Styrofoam- even if there is a #6 on the container.

Note: Not all plastics, even those with with a number in a triangle, are acceptable.

plastics are accepted, other numbers have exceptions but are generally not accepted at our local recycle facility.

If you are unsure if something is recyclable please call Honeywagon for clarification or error in favor of the trash, it is very important to keep contamination out of recycling.
